

What is E3 YPN?

E3YPN stands for Educate, Empower, Engage Young Professionals Network. This organization was launched in 2017 with the mind to cultivate the next generation of professionals in Casper and optimize the overall quality of life for the younger generation in Casper / Natrona County.

Mission:

Cultivate the next generation of professionals in Casper

Vision:

Optimize the quality of life for young professionals within the Casper / Natrona County community

Reasons to Join:

- Get Connected
- Expand your business & social network
- Attend events & volunteer opportunities
- Achieve personal & professional growth
- Participate in educational activities
- Have fun!

Building Community Leaders:

By striving to cultivate the next generation of professionals within Casper, the E3 Young Professionals Network works towards positioning young professionals in community leadership positions, non profit governing boards, government advisory councils, etc, while providing them with the education and tools to make this happen.

*Educate.
Empower.
Engage.*

*Cultivating the next generation of
professionals within the Casper Area*

What we offer

Professional Development

Professional development and education of E3 Young Professionals is accomplished in the form of educational conferences, forums, and seminars featuring keynote speakers, accomplished business people and even young entrepreneurs who will motivate and educate young professionals to further develop their talents and become community leaders.

Networking

The Young Professionals Network was organized to create a suitable environment through which young professionals may network and socialize. In addition to professional development sessions, the group offers both formal and informal networking events. These are typically held on a week-day and may include a social, picnic, or other family-friendly activity designed to unite the group in a relaxed atmosphere.

Civic Awareness

Through diversified programming, E3 YPN increases civic awareness among its young professionals. E3 YPN members observe local, state, and national level politics in order to understand current global issues, promote better awareness of international relations and contribute to policy debates. This will result in a more educated public and the advancement of the Casper / Natrona county community as a civic conscious community.

We want you!

If you are a young professional and want to work with others to ensure our community remains a great place to live, work, and play - join the E3 Young Professionals Group!

Become one of Casper's exclusive Young Professionals!
